The Staff recommendation is to grant limited office-mixed use-neighborhood plan (LO-MU-NP) combining district zoning.

PLANNING COMMISSION RECOMMENDATION:

May 22, 2012: *APPROVED LO-MU-NP DISTRICT ZONING, BY CONSENT*
[J. STEVENS; S. KIRK – 2ND] (8-0) D. ANDERSON – OFF THE DAIS

ISSUES:

None at this time.

DEPARTMENT COMMENTS:

The subject property situated at the southwest corner of Old Bee Caves Road and Mountain Shadows Drive is currently zoned rural residence-neighborhood plan (RR-NP), and has been used as an office and scientific laboratory prior to its annexation into the City. Across Old Bee Caves Road to the north there are apartments (MF-1-CO-NP) and across Mountain Shadows Drive to the east there are warehouses, a private school and a duplex (W/LO-CO-NP). To the south and west there are single family residences on platted lots of varying sizes. Please refer to Exhibits A (Zoning Map) and A-1 (Aerial View).

The Applicant proposes limited office – mixed use – neighborhood plan (LO-MU-NP) district zoning, with the intention of maintaining the office use. Old Bee Caves Road and Mountain Shadows Drive contains a mix of residential, civic and commercial uses, and office zoning would be compatible with the established land use character of these streets.

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	RR-NP	Office and scientific laboratory
<i>North</i>	MF-1-CO-NP, MH	A few single family residences; Apartments, Plant nursery
<i>South</i>	RR-NP, MF-1-NP	Single family residences on lots of varying sizes
<i>East</i>	W/LO-CO-NP	Warehouses; Outside storage; Private school; Duplex
<i>West</i>	RR-NP, MF-1-NP	Two single family residences

SUMMARY STAFF RECOMMENDATION:

The Staff recommendation is to grant limited office-mixed use-neighborhood plan (LO-MU-NP) combining district zoning.

BASIS FOR LAND USE RECOMMENDATION (ZONING PRINCIPLES)

- 1. Zoning should promote compatibility with adjacent and nearby uses and should not result in detrimental impacts to the neighborhood character.*

The LO, Limited Office district is a designation for offices and selected commercial uses predominantly serving neighborhood or community needs, and is located in or adjacent to residential neighborhoods. The mixed use (MU) district is intended to allow for office, retail, commercial and residential uses to be combined in a single development.

- 2. Zoning changes should promote an orderly and compatible relationship among land uses.*

Old Bee Caves Road and Mountain Shadows Drive contains a mix of residential, civic and commercial uses, and office zoning would be compatible with the established land use character of these streets.

EXISTING CONDITIONS**Site Characteristics**

The subject property is developed with a residential structure used for office and laboratory purposes. The site is relatively flat and there appear to be no significant topographical constraints on the site.

Impervious Cover

The maximum impervious cover allowed by the LO-MU-NP zoning district would be 25%, which is based on the more restrictive watershed regulations described below.

Environmental

This site is not located over the Edwards Aquifer Recharge Zone. The site is in the Williamson Creek Watershed of the Colorado River Basin, which is classified as a Barton Springs Zone Watershed. It is in the Drinking Water Protection Zone. This tract lies in the Contributing Zone.

According to flood plain maps, there is no flood plain within the project location.

The site is located within the endangered species survey area.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

Trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment on this site will be subject to providing structural sedimentation and filtration basins with increased capture volume and 2 year detention. Runoff from the site is required to comply with pollutant load restrictions as specified in LDC Section 25-8-514.

Transportation

Additional right-of-way for Mountain Shadows Drive will be required at time of subdivision and/or site plan application.

A traffic impact analysis was not required for this case because the traffic generated by the proposed zoning does not exceed the threshold of 2,000 vehicle trips per day [LDC, 25-6-113].

Site Plan

This site is located in the Drinking Water Quality Zone and the Barton Springs Zone.

Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

The site is subject to compatibility standards. Along the south and west property lines, the following standards apply:

- No structure may be built within 25 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- No parking or driveways are allowed within 25 feet of the property line.
- In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.

Additional design regulations will be enforced at the time a site plan is submitted.

Water/Wastewater

The site is currently served with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the proposed land use. Water and wastewater utility plans must be reviewed and approved by the Austin Water Utility for compliance with City criteria. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.
